

## 2009 Candidates for Board of Directors and Technical Review Board ODVA, Inc.

### Candidates for Board of Directors

**Dave Dodds**  
Numatics

**Mr. David Dodds** is Vice President of Sales and Marketing for ODVA member Numatics and seeks re-election to the Board of Directors. Numatics has been a member of ODVA since ODVA's inception in 1995. Mr. Dodds has more than 25 years of experience in the industrial automation and process industries and has held positions of increasing responsibility in sales and marketing as well as general management. Mr. Dodds brings to the board in-depth business knowledge of the market for ODVA technologies. Mr. Dodds wishes to continue committing his time and energy to serve on the Board of ODVA as it continues to address the strategic issues facing the organization, such as helping to formulate ODVA's plans for increasing the adoption of ODVA technologies in broader market applications such as process.

**Michael Höing**  
Weidmüller Interface

**Mr. Michael Höing** is Vice-President of the Electronics Business Unit for ODVA member Weidmüller Interface and seeks election to the Board of Directors. Weidmüller Interface has been a member of ODVA since 2005. Mr. Höing has more than 20 years of experience in industrial automation and process industries and has held positions of increasing responsibility in engineering and general management. Mr. Höing will bring to the board in-depth technical knowledge of the applications for ODVA technologies in the manufacturing industry, encompassing both discrete and process. Mr. Höing wishes to commit his time and energy to serve on the Board of ODVA as it continues to address the technical evolution of industrial networks, such as helping to formulate ODVA's plans for its future technology roadmap in areas such as wireless.

### Candidates for Technical Review Board

**Jörgen Palmhager**  
HMS Industrial  
Networks

**Mr. Jörgen Palmhager** is Chief Operating Officer of HMS Industrial Networks and seeks re-election as a representative on the Technical Review Board. HMS Industrial Networks has been a member of ODVA since 1996. Mr. Palmhager has more than 10 years of experience in product development of industrial network systems and extensive knowledge of CIP Networks and has held positions of progressive responsibility in product development, technology strategy and management of business operations. Mr. Palmhager brings to the Technical Review Board extensive technical knowledge of most of the world's leading industrial networks and the perspective of today's competitive field of industrial networks. Mr. Palmhager wishes to continue to ODVA's standards development where he believes he can make a valuable contribution on behalf of the members by helping to maintain ODVA technologies as best-in-class.

**Damien Leterrier**  
Molex

**Mr. Damien Leterrier** is Engineering Director of Global Industrial Communications for ODVA member Molex and seeks re-election as a representative on the Technical Review Board. Molex has been a member of ODVA since 2004. Mr. Leterrier has more than 10 years of experience in product development of industrial network systems and has held positions of progressive responsibility in product development, technical strategy and management of global product development platforms. Mr. Leterrier brings to the Technical Review Board extensive technical knowledge of CIP Networks and the perspective of today's global product development environment. Mr. Leterrier wishes to continue supporting ODVA's standards development activity as an active and committed representative on the Technical Review Board where he believes he can make a valuable contribution on behalf of the members by helping to enhance the sustainability of ODVA technologies.
